BEACON™ Vendor AI Risk Assessment

FIXED-SCOPE SERVICE

thirdpartythreathunting.com
info@thirdpartythreathunting.com | 919-592-7757

Find out what your AI vendors' models do with your data — before you sign.

Your security questionnaire asks whether a vendor protects your data. It rarely asks what the vendor's AI does with it, whether its decisions can be explained, or who pays when it gets something wrong. A BEACON™ assessment asks those questions of a named vendor, live, and gives you a scored answer you can act on.

6	**< 1 hr**	**3 weeks**	**G / Y / R**
BEACON™ categories	live session with the vendor	from scoping to readout	scored on specificity

WHAT YOU GET

- **A scored BEACON™ report**
  Green, Yellow or Red for Bias, Explainability, Access & Data, Contractual Accountability, Oversight and Non-determinism, with the vendor's answers in its own words.
- **A clear call**
  Two or more Reds means deeper review before sign-off, whatever the standard questionnaire said.
- **Remediation and contract asks**
  The specific terms to request — data-training exclusions, AI-incident language, audit rights — ranked by risk.
- **A 30-minute readout**
  For your risk lead and the business owner of the vendor relationship.

HOW IT RUNS

WEEK 1 · PREPARE
Intake call with you; review of the vendor's contract, DPA and published AI documentation.

WEEK 2 · ASSESS
A live session of under an hour with someone from the vendor who can speak to the model itself, not only sales.

WEEK 3 · REPORT
Scored report, remediation list and contract asks, then the readout. The scorecard is yours; the vendor does not see it.

WORKSHOPS AND PACKAGES

BEACON™ live class	Half-day, online, every quarter, open to anyone. Five or more from one organization are quoted as a team workshop.	**$249 / seat**
BEACON™ briefing	Ninety minutes online for leaders or a team of five or fewer. Counts toward a full workshop booked within 60 days.	**$1,250**
BEACON™ team workshop	Half-day online, up to 20 people, with a working session on one of your own AI vendors. $2,500 for teams we have trained in the last 24 months.	**$3,500**
Assessment, single vendor	One AI-enabled vendor, as above.	**$3,500**
Assessment, three vendors	Three vendors, plus a one-page summary across them.	**$9,500**
BEACON™ with your team	Three vendors run alongside your analysts, a half-day BEACON™ workshop, and templates your team keeps.	**$14,500**
Annual re-assessment	Re-run for a vendor already assessed.	**$1,750 / vendor**

Start small: class seats count toward a team workshop, and a workshop fee is credited in full against an assessment package, each within 90 days. **Non-profits:** 25% off. **Associations and chapters:** ask us about member workshops. Discounts do not combine.

Delivered remotely; on-site at the day rate plus travel. Billed 50% on signature and 50% on delivery, net 30. A mutual NDA with the vendor can be arranged where needed. Prices valid to Dec 31, 2027.
